Dear Sir,

I talked to my father about a matter I have already notified the local newspaper The New York Daily News. The tale I had with my father was very serious and intensified by questions relating to the subject of an incident that occurred on Friday night, March 25.

My father told me it is my duty to report this matter regardless of the embarrassment I may incur.

We me and six other people took a ride to Orchard Beach. We were sitting in the car taking my friends and this girl took a walk on the beach. I was looking out the window to the sky and I seen something that looked like an off white star it began to move and a red light came on it moved

in several directions, then we  
saw a blue light on top  
spinning very fast, and a  
blue one on the bottom  
going very slow. Then it  
vanished. When my friend  
and the girl came back from  
the beach they ask us  
if we seen it, and we  
said yes. I don't believe  
that all of us were seeing  
things at the same time.

I leave this matter up  
to you, what ever actions  
I may give you, I am very  
willing to do so.

Yours Truly
